Did you know that there are more than just 3 'R's that you can do in order to reduce the amount of garbage you send to landfills? In addition to 'R'educer, 'R'euser and 'R'ecycler, why not 'R'efuse products that are overly packaged, 'R'epair items instead of replacing them with new ones and 'R'ethink before buying something that you do not really need? By remembering these 'R' words you can vastly reduce the amount of waste you produce and therefore help the environment along with the fauna and flora that lives in it!
